

## Efficient access, scaling & loading

**Kahler's KA-2025 kiosk simplifies the process of scaling trucks in & out for loading materials on a site.** Drivers input all necessary information prior to loading, eliminating the need to exit the vehicle and enter the office. The result is less time spent at the scale and more efficient scaling in and out, ensuring both ease and security.

### Benefits

**Efficiency**

**Productivity**

**Ease of Use**

**Smooth Operations**

**Security**

### Features

- Gate and bay access
- Easy unattended check-in for drivers
- Direct traffic to correct location
- NTEP legal-for-trade compliance
- Quick ticket documentation
- Digital signature capture available
- Setup managed through webpage application
- Verify non-NTEP loaded weights such as direct-loaded dry fertilizer or from liquid pulse meters

To learn how our systems can help give you control at your facility, please contact your Kahler Territory Sales Manager. Don't know who that is? Visit [KahlerAutomation.com/sales](http://KahlerAutomation.com/sales) to find out!

## High lights

### SECURE UNATTENDED ACCESS

- Allow only the proper drivers into the facility with controlled access based on driver identification or order numbers for enhanced security.

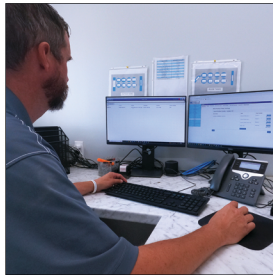

### STREAMLINED OPERATIONS

- Enables convenient input from within the driver's vehicle to simplify operations and allow office personnel to focus on key tasks.
- Bay directions direct truck traffic to the correct loading area, reducing confusion and congestion.

### TICKET DOCUMENTATION

- Secure electronic signature capture available, enhancing accountability (requires indoor installation of a signature pad).
- Pick and receipt ticket printers provide essential documentation before material loading begins, and a receipt confirming the loaded material's weight.

### SYSTEM MANAGEMENT

- Customize your KA-2025 to fit your business needs. Configuration and setup are done using a webpage application for simplified and user-friendly interface.
